13 January 2016

Dear Sirs

REAFFIRMING SASOL'S COMMITMENT AS A SIGNATORY OF THE UNITED NATIONS GLOBAL COMPACT

Sasol's commitment to the United Nations' Global Compact ("UNGC") commenced in 2001. As an organisation, we reaffirm this commitment and its importance to our business and pledge our support of the ten principles and the twenty-one criteria of the advanced level programme.

Sasol's definition of victory is to grow shareholder value sustainably. Our efforts to achieve this goal on an ongoing basis are guided by the principles of the UNGC. As part of our day-to-day business activities, we take cognisance of the ten principles and, in this regard, continually strive to further enhance our performance.

In order to better align with the ten principles, we are evaluating the pertinent areas which support the Sustainable Development Goals ("SDGs"). To date, both energy and water have been identified as focus areas where we can continue to drive our already advanced activities.

Finally, in 2015, Sasol produced our fully consolidated Annual Integrated Report ("AIR") with all sustainability information and data included in this single publication. Supporting the data synopsis is a web-based manual, which provides further insights to the statements made in the AIR and reflects how we drive sustainability throughout the organisation.

We look forward to our continued engagement.

Best regards,

David E Constable
President and Chief Executive Officer
