

## **Sasol Petroleum Mozambique Limitada**

### **REQUEST FOR EXPRESSION OF INTEREST**

**For the execution of the PSA Project Well Pad Surface Facilities and Flowlines**

#### **POST DRILLING CIVIL AND MECHANICAL WELL PAD CONSTRUCTION**

##### **1. BACKGROUND**

Sasol Petroleum Mozambique Limitada (SPM) (hereinafter referred to as Sasol) is the Operator of the Production Sharing Agreement (PSA), which is a license holder in the Province of Inhambane, Mozambique, containing light oil and gas resources.

Sasol has been actively executing the PSA Plan of Development which was approved by the Government of Mozambique in 2016 and a revision thereto approved in September 2020. The revised Plan of Development describes Sasol's ongoing intent to optimally develop the light oil and gas resources contained in the Inhassoro, Temane and Pande fields.

A key objective of the revised Plan of Development is to enable the supply of natural gas to the Central Térmica de Temane power plant, which is also under development as part of Mozambique's national electrification programme (the Temane Regional Electricity Project). Another key objective is to enable the production of liquefied petroleum gas (LPG) for domestic consumption. This requires the construction of a new light oil, gas and LPG processing facility and associated surface facility infrastructure (hereinafter referred to as the PSA Project) in the Temane area in the Province of Inhambane.

In support of the engineering, procurement and construction of the PSA Project, amongst others, Sasol will be required to appoint construction contractors to execute the various scopes of construction works.

##### **2. POST DRILLING CIVIL AND MECHANICAL WELL PAD CONSTRUCTION**

The PSA Project requires contractors for the **Post Drilling Civil and Mechanical Well Pad Construction**. Interested Contractors will need to prove their appropriate ability and experience to successfully execute the construction works listed below in compliance with the technical requirements and criteria applicable to oil, gas and petrochemical projects in Mozambique whilst satisfying Mozambican local content requirements.

The works entails civil construction (earthworks, road maintenance, fencing, small building, concrete platforms, plinths, steel platforms/structures and pipe supports), mechanical construction (piping fabrication and installation), electrical, control and instrumentation construction (fibre communication, solar power system, equipment hook-ups, earthing installation, remote I/O and DCS/AMS software integration).

##### **3. OBJECTIVE OF THIS EOI**

This request is intended to solicit information required to enable Sasol to identify and assess suitably qualified and experienced Contractors registered or established and operating in the Republic of Mozambique, in order to create an opportunity for such Contractors to potentially participate in the future bidding for this Project.

Sasol hereby invites eligible Contractors to indicate their interest to bid for the **Post Drilling Civil and Mechanical Well Pad Construction**. Interested Contractors should provide appropriate information showing that they have the required qualification(s), ability and relevant experience to perform the identified Work.

Kindly refrain from submitting any irrelevant information and documentation. Kindly ensure that each item hereunder is addressed and that your submission is structured strictly in accordance with the list of required documentation and information hereunder:

- 1) Sasol has been over the years a driver of socio-economic development through its investments and operations. A key aspect of this development impact has been enabled through its commitment to Local Content. Sasol is fully committed to improved levels of local content and supports the local content requirements for the procurement of goods and services which are designed to promote the development of Mozambican owned businesses and know-how. The aim is to maximise procurement from Mozambique owned (majority and minority) and Inhambane Head Quartered companies. Accordingly, Sasol encourages interested contractors to maximize any potential local participation when responding to this Request for EOI. Relative to Local Content, contractors are to:
  - a. Provide detail of the Contractor's ownership structure [percentage shareholding held by shareholders as well as a description of the identity of shareholders] and details of registration of the company in terms of Mozambican legislation.
  - b. Indicate what percentage of Mozambican labour, staff and management the Contractor envisages using to execute the Works.
  - c. Indicate what percentage of the Contractor's estimated cost would be based on Mozambican procured materials and services.
  - d. Contractor to indicate if the company is a Mozambican registered entity, a Mozambican minority owned entity or a Mozambican majority owned entity. Contractor to also indicate whether the company has Head Quarters in Inhambane.
- 2) Provide relevant financial information for last 3 years, current year and a forecast for next year. [Turnover, net profit and total equity reserves].
- 3) Technical capability
  - a. Provide a detailed track record of work performed over the past 5 years specifically for the referenced category.
  - b. Provide full details of the following: Contractor's technical skills; equipment quality and capacity; resources' skills, qualifications, experience and capacity; planning systems / progress measuring system; and workshop capacity to proof that it can successfully execute the Work applicable to the referenced category.
  - c. Contractor must be well established and have an accredited quality management system. Certification to ISO 9001 and ISO 3834 are required.
- 4) Provide Information and detail of the Contractor's accredited quality, health, safety and environmental management systems as well as all applicable accreditations.
- 5) Provide detail of the Contractor's knowledge and experience with the NEC (New Engineering Contract).
- 6) Demonstrate ability to conduct business in the English Language.

Potential bidders will be selected in terms of Sasol's evaluation criteria [as determined by Sasol], taking into account the details that the Contractor supplies, all other information [including all risks associated with this project]. Potential bidders will be selected by Sasol in its sole and unfettered discretion.

Contractors who satisfy the pre-qualification criteria will be required to sign a confidentiality agreement with Sasol, prior to receiving any further information regarding the project and for the purpose of further commercial process.

#### **4. SUBMISSION INSTRUCTIONS**

Interested and eligible Contractors are to submit the information and documentation stipulated above (**in English**) as per the following:

E-mail address:           psaobl@vgiafrica.com  
Description of Project:   PSA OBL Project  
Closing Date:             28 March 2022  
Closing time:             12:00 (UTC+02:00) Harare, Pretoria

#### **5. GENERAL**

Details of this Expression of Interest are also available on Sasol's official website: <https://www.sasol.com/psa-project>.

Interested and eligible Contractors should note that this request by Sasol is aimed solely at requesting information required by it to enable future decisions regarding the Construction Works and selection of potential construction bidders. It does not, in any manner, indicate any intention by Sasol to enter into further discussions with any Contractor who submits information and expresses interest to participate in this process, or to enter into any contract or other commercial relationship between Sasol and such Contractor, nor does it constitute an undertaking by Sasol to award any contracts to, or to place any purchase orders related thereto whatsoever on, any Contractor. Sasol is under no obligation to consider only the respondents to this EOI for potential future Contracts.

Responses by Sasol will only be made to short-listed prospective bidders and Sasol may request further information from such identified bidders. Sasol may also arrange for auditing of information that has been provided by a respondent pursuant to this EOI.
