

## SASOL FACTS

Sasol is a global energy and chemicals company. We harness our knowledge and expertise to integrate sophisticated technologies and processes into world-scale operating facilities. We strive to safely and sustainably source, produce and market a range of high-quality products globally, creating value for stakeholders.

## Our Purpose – Innovating for a better world

Our Purpose guides us in all that we do and enables delivery of shared value. It compels us to deliver against the outcomes of People, Planet and Profit – with the intent to be a force for good.

### Values

Capturing the essence of our 'can do' spirit as we transition to a more resilient, environmentally sustainable business.

#### Be safe

We always place the safety of people first

#### Be caring

We care deeply for our people, planet, and our communities

#### Be inclusive

We foster inclusivity in all we do, our employees, our customers and stakeholders

#### Be accountable

We own our results

#### Be resilient

We boldly adapt to change and embrace agility

## Sustainability statement

Advancing energy and chemical solutions that contribute to a thriving planet, society and enterprise.

## Future Sasol

We are strengthening and growing our foundation business to unlock its full potential, while simultaneously transforming our portfolio, building a stronger, sustainable and more resilient organisation.

#### People

Committed to pursuing Zero Harm and caring for our people

#### Planet

Decarbonising\* operations and transitioning to Future Sasol

#### Profit

Resolute about disciplined financial management and a balanced capital allocation approach

\* Refers to the process of reducing the amount of greenhouse gas emissions (carbon dioxide, methane, nitrous oxide) that a society or an industry produces, as well as increasing the amount that is absorbed.
