

SASOL FACTS

Our value proposition

We have more than 70 years experience in the production and marketing of fuels and chemicals. As a customer-centric organisation we provide various energy and chemical solutions through our proprietary technologies.

What makes us unique

- Our **South African** integrated value chain

Our **operating model integrates vertically by sourcing coal and natural gas feedstock** from our own mines and gas fields, along with procuring crude oil and other feedstocks, which are then refined into fuels and chemicals. We integrate horizontally through producing specialised chemicals in multiple global locations

Our integrated value chains underpin our differentiated value proposition

- Our Secunda complex's construction commenced in 1976. **At the time it was the world's largest engineering project** and to this day it remains a jewel in South Africa's industrial crown
