

UN SDG INDEX 2026

Prioritising the United Nations Sustainable Development Goals (SDGs)

Sasol's sustainability ambition

Advancing energy and chemical solutions that contribute to a thriving planet, society and enterprise.

At Sasol, sustainability is safe and responsible operations that balance economic growth with social equity and environmental stewardship, aiming for a resilient future aligned with global sustainability goals. This underscores the Group's commitment to creating long-term value, addressing the challenges of climate change and resource management, and minimising Sasol's environmental impact while enhancing social wellbeing.

Foundational underpinnings

Sasol's sustainability pillars; Enterprise, Planet, Purpose, and Society are supported by a strategic foundation that aligns the SDGs with United Nations (UN) Global Compact Principles, providing a unified framework for impact and responsible business conduct.

SDG INDEX CONTINUED

SDG SUB-GOAL MEASURE	OUR CONTRIBUTION	IMPACT ON OTHER SDGS
 SDG 8: DECENT WORK AND ECONOMIC GROWTH 8.1 Contribution to the economies where we operate 8.2 Levels of economic productivity and innovation 8.3 Job creation, entrepreneurship, creativity and innovation, and encourage the formalization and growth of micro-, small- and medium-sized enterprises 8.4 Resource efficiency 8.5 Inclusive and productive employment 8.6 Youth employment, education and training 8.8 Safe and secure working environments	- Sasol remains steadfast in our commitment to Zero Harm, striving to ensure that every employee and service provider returns home safely everyday. - A HSI standard with enabling practices is in place to support the various operating entities in high-severity incident prevention. R37,48 billion in wages and benefits that contribute to economies in which we operate. - Economic inclusion activities created 444 new jobs and sustained 3 478 existing jobs. - Approximately 867 registered suppliers participated in the FY25 awareness training programme for Human Rights. Spent R565 million towards bursaries, graduate development, learnerships, apprenticeship and internship programmes. - Energy efficiency improvement.	
 SDG 9: INDUSTRY, INNOVATION AND INFRA- STRUCTURE 9.3 Increase the access of small-scale industrial and other enterprises, in particular in developing countries, to financial services 9.4 Infrastructure and sustainable industries 9.5 Enhance scientific research and development 9a Facilitate sustainable and resilient infrastructure development in developing countries 9b Support domestic technology development, research and innovation in developing countries	Provided 71 loans to beneficiaries and a balance of R594 million loan book. R115 million funding to 22 suppliers. Invested R768,4 million globally to improve and enhance the quality of life of our local communities. Assessed our 2030 reduction target as well below 2°C aligned and our net zero ambition as 1,5°C aligned. Support of institutions with research and capacity building to advance innovation and improve Southern Africa's global competitiveness in scientific research. Develop systemic interventions to improve STEM teaching and learning outcomes. Supporting and collaborating with local government for infrastructure improvements such as safety shelters and community centres that impact marginalised communities. Participation in the UN Global Compact Young SDG Innovators programmes.	

SDG INDEX CONTINUED

	SDG SUB-GOAL MEASURE	OUR CONTRIBUTION	IMPACT ON OTHER SDGS
 SDG 12: RESPONSIBLE CONSUMPTION AND PRODUCTION	12.1 Implement the 10-year framework of programmes on sustainable consumption and production	- We support and advocate for sustainability disclosure against best practice standards. - Essential care chemicals that provide sustainable solutions such as reducing waste and enabling low temperature washing. - Sasol is advancing sustainable innovation through LIVINEX IO 7, a sustainable surfactant derived from black soldier fly larvae (BSFL) oil redefining personal care. Achieved International Sustainability and Carbon Certification PLUS (ISCC+) certification for renewable diesel, Sustainable Aviation Fuel (SAF), and comonomers products via our Natref and Secunda facilities	
	12.2 By 2030, achieve the sustainable management and efficient use of natural resources		
	12.4 Environmentally sound management of chemicals and all waste and significantly reduce their release to air, water and soil		
	12.5 By 2030, substantially reduce waste generation through prevention, reduction, recycling and reuse		
	12.6 Sustainability reporting		
	12.8 Sustainability information and awareness		
 SDG 13: CLIMATE ACTION	12a Scientific and technological capacity to move towards more sustainable patterns of consumption and production	- We achieved approximate 15% net reduction off the combined Southern Africa Energy and Chemicals and International Chemicals 2017 scope 1 and 2 baseline. Optimised our emissions reduction roadmap (ERR), which demonstrates our ability to lower our carbon footprint while continuing to deliver value. - Sasol remains committed to aligning its decarbonisation efforts with global and national policy direction while enabling sustainable industrial development. Secured >1,37GW of renewable energy in South Africa through selfbuild and procurement, underpinning the longer term target of 2GW operational RE by FY30. This comprises of ~920MW previously secured by FY25, together with an additional ~450MW RE secured in FY26, which includes 600Mwh of Battery Energy Storage (BESS). A portion of this is jointly procured with Air Liquide.	
	13.1 Strengthen resilience and adaptive capacity to climate-related hazards and natural disasters in all countries		
	13.2 Integrate climate change measures into national policies, strategies and planning		
	13.3 Improve education, awareness-raising and human and institutional capacity on climate change mitigation, adaptation, impact reduction and early warning		

SDG INDEX CONTINUED

Sasol is committed to the Ten Principles guiding us in our business activities.

UN Global Compact Principles (Foundation)

HUMAN RIGHTS

LABOUR

ENVIRONMENT

ANTI-CORRUPTION

www

Additional detail regarding the Ten Principles is available at <https://unglobalcompact.org/what-is-gc/mission/principles>

Outcomes

Sasol translates global commitments into tangible action shaping the pathway to its future.
