\* Reflects natural gas purchases from the 30% JV partners in Mozambique

\*\* Includes feedstock cost of natural gas and coal

**Abbreviations**

mm bbl - million barrels

mm tons - million tons

bscf - billion standard cubic feet

m bbl - thousand barrels

ktpa - thousand tons per annum

Rm - Rand millions

\$/ton - US dollar per ton

R/ton - Rand per ton

**Commentary in respect of metrics variance**

<sup>1</sup> Canada production has declined during the period, due to reduced drilling and completion activities in FY15. Production volumes are expected to increase marginally with the completion of additional wells.

<sup>2</sup> Crude oil production in Gabon increased due to new Etame Expansion Project (EEP) and South East Etame and North Tchibala (SEENT) wells coming on line.

<sup>3</sup> Quarter 1 volumes impacted by a planned phase shutdown at Sasol Synfuels Operations. The shutdown was completed successfully and ahead of schedule.

<sup>4</sup> Full year Natref volumes to be impacted by a planned shutdown in November 2015.

<sup>5</sup> The average annual utilisation rate at ORYX GTL in Qatar is still expected to be above 87% of nameplate capacity, with a planned statutory shutdown still to come in FY16.

<sup>6</sup> EGTL reached beneficial operation in FY15 with Train 1 and Train 2 coming on line in June 2014 and November 2014 respectively. The plant is still in its ramp up phase and working towards stable two train operations. The current focus is on improving reliability and achieving stable operations to maximize diesel and naphtha production.

<sup>7</sup> Quarter 1 volumes impacted by a planned phase shutdown at Sasol Synfuels Operations and a planned delay in the beneficial operation of the C3 expansion project to October 2015.

<sup>8</sup> Demand for explosives impacted by downturn in mining industry.

<sup>9</sup> Performance Chemicals sales volumes to be slightly higher than prior year, with varied margins expected for our different product streams. US operations impacted by a planned shutdown in quarter 1.

*The production and sales metrics for the three months ended 30 September 2015 have not been reviewed and reported on by our auditors.*
