from January 1 to December 31, 2014.

Section 1 – Conflict Minerals Disclosure

Item 1.01 Conflict Minerals Disclosure

For the period January 1, 2014 to December 31, 2014, certain products manufactured by Sasol Limited and its consolidated subsidiaries (together, “Sasol”), or which Sasol contracted to be manufactured, contained columbite-tantalite (coltan), cassiterite, gold, wolframite, or their derivatives, which are limited to tantalum, tin, and tungsten, necessary to the functionality or production of such products (“Conflict Minerals”).

Sasol conducted a reasonable country of origin inquiry, in good faith, that it believes was reasonably designed to determine whether any of the Conflict Minerals originated in the Democratic Republic of the Congo or an adjoining country that shares an internationally recognized border with the Democratic Republic of the Congo (the “Covered Countries”).

Sasol is many supply chain tiers removed from mining activities and has no direct business relationship with mines or metal processing facilities. In order to conduct its reasonable country of origin inquiry, Sasol identified first-tier suppliers that supply Sasol goods containing Conflict Minerals used in, and necessary to the functionality or production of, products manufactured by Sasol or products that Sasol contracted to be manufactured. Sasol obtained written representations from these suppliers as to the country of origin of the Conflict Minerals. These representations, which Sasol believes to be reasonably reliable, indicated that the Conflict Minerals originated in countries other than the Covered Countries. Therefore, based on its reasonable country of origin inquiry, Sasol has determined that it has no reason to believe that its necessary Conflict Minerals may have originated in the Covered Countries.

This Conflict Minerals Disclosure is also available on Sasol’s website at: www.sasol.com.
